## Lisanne Fransen

Production Designer & Art Director

---

### Biography

Lisanne Fransen is a Dutch born Production Designer based in Stockholm, Sweden. With her roots in exhibition design she eventually evolved in creating sceneries and film sets for music videos, short films, commercials, tv drama series and feature films.

Everything for the moving image! Yet she also still designs for museums, theaters, weddings and oh well, basically everything that needs a physical space to come to life.

In the Netherlands she graduated from the Utrecht School of the Arts in 2012. In Sweden thereafter she graduated from Konstfack University in 2014 and she took her Masters in Production Design at the Stockholm University of Dramatic Arts in 2020.

Here at the film school, she started to explore the new possibilities of virtual production design for the screen through 3D digital drawings, object scanning, landscape design, game engines and pre-visualisation.
